

**Minnesota Herpetological Society Grants in Herpetological
Conservation and Research Cover Page**

Name: _____

Address: _____

Email address: _____

Proposal Title: _____

Amount Requested from MHS (do not exceed \$1,500.00): _____

Check payable to: _____

Please include the following materials with your request:

1. Completed MHS Grants in Herpetological Conservation and Research Cover Page.
2. Grant Proposal – 5 page limit, not including references, graphs, or figures. Please use 10 point font or greater.
3. Budget – Include total budget, amount requested from other sources, and amount requested from MHS. Please discuss the status of your project if full funding is not available. Are there contingency plans if you get only partial funding?
4. Permit and animal care protocol information. Include information about any necessary permits, received or requested, and animal care protocols required by your institution.
5. A current CV or resume.

Grant requests are considered twice each year. Grant proposals must be received by February 15th (for April-May fund dispersal) and September 15th (for November-December fund dispersal).

Funding is limited to: 1) Projects with a MN-based PI; 2) Projects conducted in MN; and/or 3) Projects outside MN that focus on species that also occur in MN. MHS gives preference to applicants that are MHS members in good standing.

Email requests to:

Tony Gamble, Ph.D. - Grants Chair
